TEME VALLEY TRACTORS (WELSHPOOL) Ltd

Introducing the new T 5 Utility Unique Compact Competitive

NEW T5. EVERYTHING YOU NEED AND MORE

The T5 range has been designed to be the ultimate all-rounder for today's modern mixed farms. New Holland listened and drew on the T5000 range's heritage and updated it for modern farming. Whether it is doing loader work, working with front or rear mounted implements or travelling down the road, the T5 delivers premium features in a compact package. A multitude of customisable options from transmissions to engines, when combined with engine speed management and best-in-class fuel consumption, make the T5 a winning package.

ULTIMATE COMFORT

The spacious VisionView™ cab offers outstanding all-round visibility, a high visibility roof hatch for comfortable loader work.

EXCELLENT EFFICIENCY

Equipped with a Tier 4A compliant FPT Industrial F5C engine, the T5 delivers efficient power when required.

OUTSTANDING VERSATILITY

The new wide frame front loader offers higher stability, even when working with the heaviest loads at maximum extension.

INCREASED PRODUCTIVITY

The all-new three speed PTO delivers flexibility of option and operating efficiency.

FULLY COMPLIANT WITH MOTHER REGULATIONS

To fit in with the livestock sector

All prices quoted are plus VAT @ 20%

Models in the T5 Utility range include:

T5.75 Max. horsepower - ISO TR14396 - ECE R120 [kW/hp(CV)] 55/75
 Rated horsepower - ISO TR14396 - ECE R120 [kW/hp(CV)]55/75
 Transmission Synchro Shuttle™
 Max. lift capacity through the range (610 mm behind ball ends) (kg) 3900

T5.85 Max. horsepower - ISO TR14396 - ECE R120 [kW/hp(CV)] 63/86
 Rated horsepower - ISO TR14396 - ECE R120 [kW/hp(CV)]63/86
 Transmission Synchro Shuttle™
 Max. lift capacity through the range (610 mm behind ball ends) (kg) 3900

T5.95 Max. horsepower - ISO TR14396 - ECE R120 [kW/hp(CV)] 73/99
 Rated horsepower - ISO TR14396 - ECE R120 [kW/hp(CV)]73/99
 Transmission Dual Command™
 Max. lift capacity through the range (610 mm behind ball ends) (kg) 3900

T5.105 Max. horsepower - ISO TR14396 - ECE R120 [kW/hp(CV)] 79/107
 Rated horsepower - ISO TR14396 - ECE R120 [kW/hp(CV)]79/107
 Transmission Dual Command™
 Max. lift capacity through the range (610 mm behind ball ends) (kg) 3900

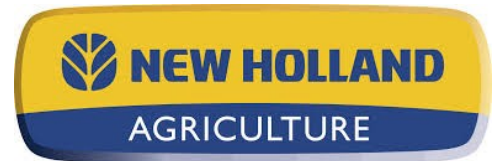

T5.115 Max. horsepower - ISO TR14396 - ECE R120 [kW/hp(CV)] 84/114
 Rated horsepower - ISO TR14396 - ECE R120 [kW/hp(CV)]84/114
 Transmission Dual Command™

New Design Loaders

New Design MX Loaders, ALO Loaders and New Holland Loader with Euro Head fittings all available in stock or to order. Contact us for details.

New Quicke loader is stronger and smarter than ever

Loader manufacturer, Quicke, has launched its first new premium loader into the market in 11

years, at SIMA this year. Billed as stronger, smarter and more user friendly, the Q-Series is set to revolutionise and digitalise tractor loader handling.

Everything about the Q-Series is engineered for enhanced strength. The introduction of heavy duty cast and forged steel components in the rear arms, knees and front parts, improves the loader's durability and the potential lifespan is greatly increased.

The new TL700 and TL 500 are now available . These are suitable for the new

T5 Utility. Purpose designed for a perfect match for New Holland tractors. Available in

mechanical self-levelling MSL and non-levelling NSL versions, there is a 700TL loader that will perfectly match your tractor and your application.

Five New Holland 700TL front loaders are available. Lift capacities span 2060kg to 2808kg and maximum lift heights range from 3740mm to 4260mm.

MX offer a full range of quality loaders for all your handling requirements:

MX Series Loaders Tech Series

Loader PCH Self Levelling 60-250 HP a combination of head stocks.

U Series: Mechanical self levelling. **Compact Loader MX—C Series** Loader Compact Loaders. Specifically designed for the amenity and grounds care tractor market for 15– 60hp
